

We believe that change is needed to reach Sustainable Development Goal 6 and to solve the current service and finance gap in the water & sanitation sector. To accelerate this, innovations with a business-wise approach are needed to tap into new sources of finance, and create a WASH economy that can thrive. Aqua for All is actively contributing to the following sessions and events in Stockholm that are linked to that ambition:

Meet us there, or, as we are around, please reach out to us in case you would like to plan a separate meeting.
